

## Home Systems Breakdown Coverage

Plymouth Rock's Home Systems Breakdown Coverage\* protects the systems that homeowners depend on every day, such as furnaces, air conditioning units and stoves.

Today most of these systems are made with a lot of sensitive, moving parts. As a result, the risk of a home equipment breakdown—and the cost to repair it—is greater than ever.

Another good reason to add this coverage is that most standard home policies and warranties don't cover the mechanical breakdown of this type of equipment.

### Covered Systems and Equipment

- Central air conditioning
- Boilers, furnaces and heat pumps
- Conventional and solar water heaters
- Radiant floor heating
- Renewable heating (e.g., solar, wind, geothermal)
- Water purification and filtration
- Well pumps, installed sump pumps
- Pool and spa pumps, heating and filtration
- Electrical service panels
- Permanent emergency generators
- Home security monitoring and control devices
- Chair lifts and elevators

### Covered Personal Property

- Kitchen and laundry appliances
- Home entertainment equipment
- Computers, peripherals and wireless devices
- Power tools and shop equipment
- Lawn and garden equipment
- Mobile medical equipment
- Portable generators and sump pumps

\*Home Systems Breakdown Coverage is underwritten by Hartford Steam Boiler Inspection and Insurance Company. For illustrative purposes only. Actual coverage is subject to the language in the Hartford Steam Boiler contract. Plymouth Rock Assurance® and Plymouth Rock® are brand names and service marks used by separate companies that write and manage property and casualty insurance in multiple states.
